

Environmental Policy

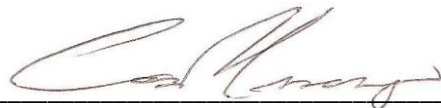

Stream Recruitment is aware that operating its business has a potential impact on the environment. It is therefore essential that all parties concerned, either within or outside our organisation, combine their efforts to both recognise and reduce the impact our operations have upon it.

To this end we at Stream Recruitment commit to the following statements:

- To operate our business in a manner that is sensitive to the needs and concerns of the people and the surrounding environment.
- To use where practical the latest technology to develop sound environmentally conscious means of providing our services.
- To integrate environmental issues into our decision making, whilst recognising that business concerns might affect the course of action.
- Where practical to reduce or eliminate pollution and reduce our consumption of resources
- To continually look for ways to improve our business and reduce our environmental impact, through our audit and management review programme.
- To educate and train our employees in the use of environmentally conscious practices, recognising that no matter what their roles are, they are also responsible for protecting the environment.
- To ensure compliance with relevant environmental legislation and other requirements related to our operations.
- To set and achieve our environmental objectives and targets.

As part of our commitment, Stream Recruitment recognises that our own day to day working practices can have an adverse effect on the environment and we are committed to reducing that impact by having the following policy:

- Reviewing our use of resources at regular management review meetings to ensure we minimise any negative effects on the environment.
- Monitoring our suppliers and using those with environmental commitment and ethical policies.
- Stream Recruitment is committed to operating in an ethical and socially responsible manner.
